FORM 8-K

CURRENT REPORT  
PURSUANT TO SECTION 13 OR 15(D)  
OF THE SECURITIES EXCHANGE ACT OF 1934  
Date of Report (Date of earliest event reported): (October 22, 2021) October 29, 2021

**Worldwide Webb Acquisition Corp.**  
(Exact name of registrant as specified in its charter)

Cayman Islands  
(State or other jurisdiction  
of incorporation)

001-40920  
(Commission File Number)

98-1587626  
(I.R.S. Employer  
Identification No.)

770 E Technology Way F13-16  
Orem, UT 84097  
(Address of principal executive offices)

84097  
(Zip Code)

(415) 629-9066  
(Registrant's telephone number, including area code)

Not Applicable  
(Former name or former address, if changed since last report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communication pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencements communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Securities Exchange Act of 1934:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one Class A ordinary share and one-half of one redeemable warrant	WWACU	The Nasdaq Stock Market
Class A ordinary shares, par value \$0.0001 per share	WWAC	The Nasdaq Stock Market
Redeemable warrants, each whole warrant exercisable for one Class A ordinary share at an exercise price of \$11.50	WWACW	The Nasdaq Stock Market

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

**Item 8.01 Other Events.**

On October 22, 2021, Worldwide Webb Acquisition Corp. (the “Company”) consummated its initial public offering (the “IPO”) of 20,000,000 units (the “Units”). Each Unit consists of one Class A ordinary share of the Company, par value \$0.0001 per share (an “Ordinary Share”), and one-half of one redeemable warrant of the Company. Each whole warrant entitles the holder thereof to purchase one Ordinary Share for \$11.50 per share, subject to adjustment. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$200,000,000.

Substantially concurrently with the closing of the IPO, the Company completed the private sale of 8,000,000 warrants (the “Private Placement Warrants”) at a purchase price of \$1.00 per Private Placement Warrant, to the Company’s sponsor, Worldwide Webb Acquisition Sponsor LLC (the “Sponsor”), generating gross proceeds to the Company of \$8,000,000. The Private Placement Warrants give the holder the right to buy one Class A ordinary share for \$11.50 per share.

A total of \$202,000,000, comprised of proceeds from the IPO and the sale of the Private Placement Warrants, was placed in a U.S.-based trust account maintained by Continental Stock Transfer & Trust Company, acting as trustee. An audited balance sheet as of October 22, 2021 reflecting receipt of the proceeds upon consummation of the IPO and the Private Placement has been issued by the Company and is included as Exhibit 99.1 to this Current Report on Form 8-K.

**Item 9.01 Financial Statement and Exhibits.**

- (d) Exhibits. The following exhibits are filed with this Form 8-K:

Exhibit No.	Description of Exhibits
<a href="#">99.1</a>	<a href="#">Audited Balance Sheet as of October 22, 2021.</a>

**SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Worldwide Webb Acquisition Corp.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of  
Worldwide Webb Acquisition Corp.

### Opinion on the Financial Statement

We have audited the accompanying balance sheet of Worldwide Webb Acquisition Corp. (the "Company") as of October 22, 2021, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of October 22, 2021, in conformity with accounting principles generally accepted in the United States of America.

### Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

/s/ Marcum LLP

Marcum LLP

We have served as the Company's auditor since 2021.

<b>Total current liabilities</b>	<u>1,489,676</u>
Deferred underwriting fees payable	7,000,000
Derivative warrant liability	9,054,000
<b>Total liabilities</b>	<u>17,543,676</u>
<b>Commitments and Contingencies (Note 5)</b>	
Class A ordinary shares subject to possible redemption, 20,000,000 shares at redemption value of \$10.10 per share	<u>202,000,000</u>
<b>Shareholders' Deficit:</b>	
Preference shares, \$0.0001 par value; 5,000,000 shares authorized; none issued and outstanding	-
Class A ordinary shares, \$0.0001 par value; 500,000,000 shares authorized; 20,000,000 issued and outstanding (including 20,000,000 shares subject to possible redemption)	-
Class B ordinary shares, \$0.0001 par value; 50,000,000 shares authorized; 5,750,000 shares issued and outstanding (1)(2)	575
Additional paid-in capital	-
Accumulated deficit	(14,833,321)
<b>Total shareholders' deficit</b>	<u>(14,832,746)</u>
<b>Total Liabilities and Shareholders' Deficit</b>	<u><u>\$ 204,710,930</u></u>

- (1) This number includes an aggregate of up to 750,000 Class B ordinary shares subject to forfeiture if the over-allotment option is not exercised in full or in part by the underwriters (see Note 4)
- (2) On September 17, 2021, our sponsor effected a surrender of 2,875,000 Class B ordinary shares to the company for no consideration, resulting in a decrease in the number of Class B ordinary shares outstanding from 8,625,000 to 5,750,000. All shares and associated amounts have been retroactively restated to reflect the reduction of founder shares (see Note 4).

*The accompanying notes are an integral part of this financial statement.*

## Note 1 — Description of Organization and Business Operations

### *Organization and General*

Worldwide Webb Acquisition Corp. (the “Company”) is a blank check company incorporated in Cayman Islands on March 5, 2021. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization, or similar business combination with one or more businesses (the “Business Combination”). The Company is an emerging growth company and, as such, the Company is subject to all of the risks associated with emerging growth companies.

As of October 22, 2021, the Company had not yet commenced operations. All activity for the period from March 5, 2021 (inception) through October 22, 2021 relates to the Company’s formation and the initial public offering (“Initial Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of its Initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering. The Company has selected December 31 as its fiscal year end.

On October 22, 2021, the Company consummated the Initial Public Offering of 20,000,000 units (the “Units”). The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$200,000,000, which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company completed the private sale of 8,000,000 warrants (the “Private Placement Warrants”) at a purchase price of \$1.00 per Private Placement Warrant (the “Private Placement”), to Worldwide Webb Acquisition Sponsor, LLC (the “Sponsor”), generating gross proceeds to the Company of \$8,000,000, which is described in Note 4.

Transaction costs amounted to \$19,745,604, including \$7,000,000 in deferred underwriting fees, \$4,000,000 in upfront underwriting fees, and \$8,745,604 in other offering costs related to the Initial Public Offering. Approximately \$8,306,250 of these expenses are non-cash offering costs associated with the Class B shares purchased by the anchor investors. In addition, cash of \$1,962,109 was held outside of the Trust Account (as defined below) and is available for the payment of offering costs and for working capital purposes.

Following the closing of the Initial Public Offering on October 22, 2021, an amount of \$202,000,000 (\$10.10 per Unit) of the proceeds from the Initial Public Offering, including \$7,000,000 of the underwriters’ deferred discount was placed in a U.S.-based trust account (the “Trust Account”) at Bank of America, N.A. maintained by Continental Stock Transfer & Trust Company, acting as trustee. Except with respect to interest earned on the funds in the trust account that may be released to the Company to pay its franchise and income taxes and expenses relating to the administration of the trust account, the proceeds from the Initial Public Offering held in the trust account will not be released until the earliest of (i) the consummation of the Initial Business Combination or (ii) the distribution of the Trust Account proceeds as described below. The remaining proceeds outside the Trust Account may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

The Company’s memorandum and articles of association provides that, other than the withdrawal of interest to pay taxes, if any, none of the funds held in the Trust Account will be released until the earlier of: (i) the completion of the Initial Business Combination; (ii) the redemption of any Class A ordinary shares, \$0.0001 par value, included in the Units (the “Public Shares”) being sold in the Initial Public Offering that have been properly tendered in connection with a shareholder vote to amend the Company’s memorandum and articles of association to modify the substance or timing of its obligation to redeem 100% of such Public Shares if it does not complete the Initial Business Combination within 18 months from the closing of the Initial Public Offering; and (iii) the redemption of 100% of the Class A ordinary shares included in the Units being sold in the Initial Public Offering if the Company is unable to complete an Initial Business Combination within 18 months from the closing of the Initial Public Offering (subject to the requirements of law). The proceeds deposited in the Trust Account could become subject to the claims of the Company’s creditors, if any, which could have priority over the claims of the Company’s public shareholders.

### *Initial Business Combination*

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering, although substantially all of the net proceeds of the Initial Public Offering are intended to be generally applied toward consummating an Initial Business Combination. The Initial Business Combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into the Initial Business Combination. Furthermore, there is no assurance that the Company will be able to successfully effect an Initial Business Combination.

The Company, after signing a definitive agreement for an Initial Business Combination, will either (i) seek shareholder approval of the Initial Business Combination at a meeting called for such purpose in connection with which shareholders may seek to redeem their shares, regardless of whether they vote for or against the Initial Business Combination, for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable, or (ii) provide shareholders with the opportunity to sell their Public Shares to the Company by means of a tender offer (and thereby avoid the need for a shareholder vote) for an amount in cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable. The decision as to whether the Company will seek shareholder approval of the Initial Business Combination or will allow shareholders to sell their Public Shares in a tender offer will be made by the Company, solely in its discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require the Company to seek shareholder approval, unless a vote is required by law or under NASDAQ rules. If the Company seeks shareholder approval, it will complete its Initial Business Combination only if a majority of the outstanding ordinary shares voted are voted in favor of the Initial Business Combination. However, in no event will the Company redeem its Public Shares in an amount that would cause its ordinary shares to no longer qualify for exemption from the Securities and Exchange Commission's (the "SEC") "penny stock" rules. In such case, the Company would not proceed with the redemption of its Public Shares and the related Initial Business Combination, and instead may search for an alternate Initial Business Combination.

If the Company holds a shareholder vote or there is a tender offer for shares in connection with an Initial Business Combination, a public shareholder will have the right to redeem its shares for an amount in cash equal to its pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable. As a result, such Class A ordinary shares were recorded at redemption amount and classified as temporary equity upon the completion of the Initial Public Offering, in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, "Distinguishing Liabilities from Equity."

Pursuant to the Company's memorandum and articles of association if the Company is unable to complete the Initial Business Combination within 18 months from the closing of the Initial Public Offering, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned and not previously released to pay the Company's franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses and net of taxes payable), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public shareholder's rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining shareholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. The Sponsor and the Company's independent director nominees will not be entitled to rights to liquidating distributions from the Trust Account with respect to any Founder Shares (as defined below) held by them if the Company fails to complete the Initial Business Combination within 18 months of the closing of the Initial Public Offering. However, if the Sponsor or any of the Company's directors, officers or affiliates acquires Class A ordinary shares in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such shares if the Company fails to complete the Initial Business Combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the Company after an Initial Business Combination, the Company's shareholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of shares, if any, having preference over the ordinary shares. The Company's shareholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the ordinary shares, except that the Company will provide its shareholders with the opportunity to redeem their Public Shares for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account, upon the completion of the Initial Business Combination, subject to the limitations described herein.

#### *Liquidity and Capital Resources*

As of October 22, 2021, the Company had a cash balance of \$1,962,109, but the Company has access to working capital loans from the Sponsor, which is described in Note 4, to cover the working capital deficit. Further, the Company's liquidity needs are satisfied through using proceeds from the Initial Public Offering and Private Placement Warrants (as described in notes 3 and 4) that is not held in Trust Account to pay for existing accounts payable, identifying and evaluating prospective acquisition candidates, performing business due diligence on prospective target businesses, traveling to and from the offices, plants or similar locations of prospective target businesses, reviewing corporate documents and material agreements of prospective target businesses, selecting the target business to acquire and structuring, negotiating and consummating the Initial Business Combination.

If the Company's estimates of the costs of identifying a target business, undertaking in-depth due diligence, and negotiating a Business Combination are less than the actual amount necessary to do so, the Company may have insufficient funds available to operate its business prior to an Initial Business Combination. Moreover, the Company may need to obtain additional financing either to complete an Initial Business Combination or because it becomes obligated to redeem a significant number of its public shares upon completion of an Initial Business Combination, in which case the Company may issue additional securities or incur debt in connection with such Initial Business Combination.

#### *Risks and Uncertainties*

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of the financial statement. The financial statement does not include any adjustments that might result from the outcome of this uncertainty.

## **Note 2 — Summary of Significant Accounting Policies**

#### *Basis of Presentation*

The accompanying financial statement are presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the SEC.

#### *Emerging Growth Company*

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statement with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

#### *Cash and Cash Equivalents*

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had \$1,962,109 in cash and no cash equivalents as of October 22, 2021.

#### *Cash Held in Trust Account*

As of October 22, 2021 the assets held in the Trust Account were held in money market funds.

#### *Class A ordinary shares Subject to Possible Redemption*

All of the Class A ordinary shares sold as part of the Units in the IPO contain a redemption feature which allows for the redemption of such Public Shares in connection with the Company's liquidation if there is a shareholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company's amended and restated certificate of incorporation. In accordance with SEC and its staff's guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99, redemption provisions not solely within the control of the Company require ordinary shares subject to redemption to be classified outside of permanent equity. Therefore, all Class A ordinary shares have been classified outside of permanent equity.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable ordinary shares to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable ordinary shares are affected by charges against additional paid in capital and accumulated deficit.

#### *Concentration of Credit Risk*

Financial instruments that potentially subject the Company to concentration of credit risk consist of a cash account in a financial institution which, at times may exceed the Federal depository insurance coverage of \$250,000. As of October 22, 2021, the Company had not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

### *Fair Value of Financial Instruments*

The fair value of the Company's assets and liabilities, which qualify as financial instruments under FASB ASC 820, "Fair Value Measurement," approximates the carrying amounts represented in the balance sheet primarily due to its short-term nature.

### *Fair Value Measurements*

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

Level 1- Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not being applied. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2- Valuations based on (i) quoted prices in active markets for similar assets and liabilities, (ii) quoted prices in markets that are not active for identical or similar assets, (iii) inputs other than quoted prices for the assets or liabilities, or (iv) inputs that are derived principally from or corroborated by market through correlation or other means.

Level 3- Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

### *Derivative Financial Instruments*

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, "Derivatives and Hedging". For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value on the grant date and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or noncurrent based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date.

### *Use of Estimates*

The preparation of this financial statement in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from those estimates.

### *Offering Costs*

Offering costs consist of legal, accounting, underwriting and other costs incurred through the condensed balance sheet date that are directly related to the Initial Public Offering. Upon the completion of the Initial Public Offering, the offering costs were allocated using the relative fair values of the Company's Class A ordinary shares and its Public Warrants and Private Placement Warrants. The costs allocated to warrants were recognized in other expenses and those related to the Company's Class A ordinary shares were recognized in additional paid-in capital. The Company complies with the requirements of the ASC 340-10-S99-1.

## *Income Taxes*

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. Deferred tax assets were deemed immaterial as of October 22, 2021.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of October 22, 2021. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties as of October 22, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals, or material deviation from its position. There is currently no taxation imposed on income by the Government of the Cayman Islands. Consequently, income taxes are not reflected in the Company's financial statement.

## *Recent Accounting Pronouncements*

The Company's management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the accompanying financial statement.

In August the FASB issued a new standard (ASU 2020-06) to reduce the complexity of accounting for convertible debt and other equity-linked instruments. For certain convertible debt instruments with a cash conversion feature, the changes are a trade-off between simplifications in the accounting model (no separation of an "equity" component to impute a market interest rate, and simpler analysis of embedded equity features) and a potentially adverse impact to diluted EPS by requiring the use of the if-converted method. The new standard will also impact other financial instruments commonly issued by both public and private companies. For example, the separation model for beneficial conversion features is eliminated simplifying the analysis for issuers of convertible debt and convertible preference shares. Also, certain specific requirements to achieve equity classification and/or qualify for the derivative scope exception for contracts indexed to an entity's own equity are removed, enabling more freestanding instruments and embedded features to avoid mark-to-market accounting. The new standard is effective for companies that are SEC filers (except for Smaller Reporting Companies) for fiscal years beginning after December 15, 2021 and interim periods within that year, and two years later for other companies. Companies can early adopt the standard at the start of a fiscal year beginning after December 15, 2020. The standard can either be adopted on a modified retrospective or a full retrospective basis. The Company is currently reviewing the newly issued standard and does not believe it will materially impact the Company.

## **Note 3 — Initial Public Offering**

Pursuant to the Initial Public Offering, the Company sold 20,000,000 Units at a purchase price of \$10.00 per Unit. Each Unit consists of one share of Class A ordinary shares and one-half of one Public Warrant. Each whole Public Warrant entitles the holder to purchase one share of Class A ordinary shares at an exercise price of \$11.50 per share.

Anchor Investors purchased an aggregate of \$198.6 million of units in this offering at the offering price, and we have agreed to direct the underwriters to offer to each Anchor Investor up to such number of units and no more than 9.9% of the units in this offering per Anchor Investor. Approximately 99.3% of the units sold in this offering were purchased by the Anchor Investors.

## **Note 4 — Related Party Transactions**

### *Founder Shares*

In March 2021, our sponsor subscribed for an aggregate of 8,625,000 Class B ordinary shares, par value \$0.001 per share, for an aggregate purchase price of \$25,000 (“founder shares”). On September 17, 2021, our sponsor effected a surrender of 2,875,000 Class B ordinary shares to the company for no consideration, resulting in a decrease in the number of Class B ordinary shares outstanding from 8,625,000 to 5,750,000, such that the total number of founder shares would represent 20% of the total number of ordinary shares outstanding upon completion of this offering (of which 750,000 Class B ordinary shares are subject to forfeiture if the underwriters do not exercise their overallotment option). Prior to the initial investment in the company of \$25,000 by our sponsor, we had no assets, tangible or intangible. The per share purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the aggregate number of founder shares issued.

Ten Anchor Investors entered into Investment Agreements (the “Investment Agreements”) with the Sponsor and the Company pursuant to which they purchased 1,250,000 Founder shares of the Company, par value \$0.0001 per share, from the Sponsor for \$0.005 per share. The Company considers the excess fair value of the Founder Shares issued to the anchor investors above the purchase price as offering costs and reduced the gross proceeds by this amount. The Company has valued the excess fair value over consideration of the founder shares sold to the anchor investors at \$8,300,000. The excess of the fair value over consideration of the Founder Shares was determined to be an offering cost in accordance with Staff Accounting Bulletin Topic 5A and was charged to shareholder’s equity upon the completion of the Initial Public Offering.

### *Administrative Services Agreement*

Commencing on the date the Units are first listed on Nasdaq, the Company has agreed to pay the Sponsor a total of \$10,000 per month for office space, utilities and secretarial and administrative support. Upon completion of the Initial Business Combination or the Company’s liquidation, the Company will cease paying these monthly fees.

### *Promissory Note-Related Party*

On March 5, 2021, the Sponsor issued an unsecured promissory note to the Company (the “Promissory Note”), pursuant to which the Company may borrow up to an aggregate principal amount of \$300,000. The Promissory Note is non-interest bearing and payable on the earlier of (i) March 15, 2022 or (ii) the consummation of the Proposed Public Offering. As of October 22, 2021, the Company has borrowed \$180,361 under the promissory note with the Sponsor, which is currently due upon demand.

### *Private Placement Warrants*

The Sponsor purchased an aggregate of 8,000,000 Private Placement Warrants, at a price of \$1.00 per Private Placement Warrant, or \$8,000,000 in the aggregate, in a private placement simultaneously with the closing of the IPO and agreed to purchase up to an additional 900,000 Private Placement Warrants if the Underwriter’s over-allotment option is exercised in full. Each Private Placement Warrant is exercisable for one share of Class A ordinary shares at a price of \$11.50 per share. A portion of the proceeds from the sale of the private placement warrants and the sale of forward purchase units to the Sponsor were added to the proceeds from the IPO to be held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable. The purchasers of the Private Placement Warrants agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants (except to permitted transferees) until 30 days after the completion of the Business Combination.

### *Related Party Loans*

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination or, at the lender's discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. To date, the Company had no borrowings under the Working Capital Loans.

### **Note 5 — Commitments and Contingencies**

#### *Registration Rights*

The holders of Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans, if any (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants or warrants issued upon conversion of the Working Capital Loans), will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to the consummation of the Proposed Public Offering. These holders will be entitled to certain demand and "piggyback" registration rights. However, the registration rights agreement will provide that we will not be required to effect or permit any registration or cause any registration statement to become effective until termination of the applicable lock-up period. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

#### *Warrant amendments*

The warrant agreement provides that the terms of the warrants may be amended without the consent of any shareholder or warrant holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least a majority of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, the Company may amend the terms of the public warrants in a manner adverse to a holder of public warrants if holders of at least a majority of the then outstanding public warrants approve of such amendment. Although the Company's ability to amend the terms of the public warrants with the consent of at least a majority of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash or shares, shorten the exercise period or decrease the number of Class A ordinary shares purchasable upon exercise of a warrant.

#### *Underwriting Agreement*

The Company paid an underwriting discount of 2.0% of the per Unit offering price to the Underwriter at the closing of the Initial Public Offering, with an additional fee of 3.5% of the gross offering proceeds payable only upon the Company's completion of its Initial Business Combination (the "Deferred Discount"). The Deferred Discount of \$7,000,000 will become payable to the Underwriter from the amounts held in the Trust Account solely in the event the Company completes its Initial Business Combination.

The Company has granted the Underwriter a 45-day option to purchase up to 3,000,000 additional Units to cover over-allotments, if any, at the IPO price less the underwriting discounts and commissions. As of October 22, 2021, the underwriters have not exercised the over-allotment option.

#### **Note 6 — Warrant Liabilities**

The Company accounted for the 18,000,000 warrants issued in connection with the Initial Public Offering (the 10,000,000 Public Warrants and the 8,000,000 Private Placement Warrants) in accordance with the guidance contained in ASC 815-40. Such guidance provides that because the warrants do not meet the criteria for equity treatment thereunder, each warrant must be recorded as a liability. Accordingly, the Company classifies each warrant as a liability at its fair value. This liability is subject to re-measurement at each balance sheet date. With each such re-measurement, the warrant liability will be adjusted to fair value, with the change in fair value recognized in the Company's statement of operations.

Each whole Warrant entitles the holder thereof to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as described herein. Only whole Warrants are exercisable. The Warrants will become exercisable on the later of 30 days after the completion of the Initial Business Combination or 12 months from the closing of the Initial Public Offering and will expire five years after the completion of the Initial Business Combination or earlier upon redemption or liquidation. No fractional Warrants will be issued upon separation of the Units and only whole Warrants will trade.

The exercise price of each Warrant is \$11.50 per share, subject to adjustment as described herein. In addition, if we issue additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of the Initial Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by our board and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), the exercise price of the Warrants will be adjusted (to the nearest cent) to be equal to 115% of the Newly Issued Price.

The Warrants will become exercisable on the later of:

- 30 days after the completion of the Initial Business Combination or,
- 12 months from the closing of the Initial Public Offering;

provided in each case that we have an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the Warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement).

The Company is not registering Class A ordinary shares issuable upon exercise of the Warrants at this time. However, the Company has agreed that as soon as practicable, but in no event later than fifteen (15) business days, after the closing of the Initial Business Combination, the Company will use its best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the Warrants. The Company will use its best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the Warrants in accordance with the provisions of the warrant agreement. Notwithstanding the above, if the Company's Class A ordinary shares is at the time of any exercise of a Warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Warrants who exercise their Warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, it will not be required to file or maintain in effect a registration statement, but the Company will be required to use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The Warrants will expire five years after the completion of the Initial Business Combination or earlier upon redemption or liquidation. On the exercise of any Warrant, the Warrant exercise price will be paid directly to us and not placed in the Trust Account.

Once the Warrants become exercisable, the Company may redeem the outstanding Warrants for cash (except as described herein with respect to the Private Placement Warrants):

- In whole and not in part;
- At a price of \$0.01 per Warrant;
- Upon a minimum of 30 days' prior written notice of redemption, referred to as the 30-day redemption period; and
- if, and only if, the last sale price of our Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share splits, dividends, reorganization, recapitalizations, and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

The Company will not redeem the Warrants for cash unless a registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the Warrants is effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period. If and when the Warrants become redeemable by the Company, it may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Except as described below, none of the Private Placement Warrants will be redeemable by the Company so long as they are held by the initial purchasers of the Private Placement Warrants or their permitted transferees.

Once the Warrants become exercisable, the Company may redeem the outstanding Warrants (except as described below with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.10 per Warrant, provided that holders will be able to exercise their Warrants on a cashless basis prior to redemption and receive that number of Class A ordinary shares determined in part by the redemption date and the "fair market value" of the Class A ordinary shares except as otherwise below;
- upon a minimum of 30 days' prior written notice of redemption; and
- if, and only if, the last sale price of the Company's Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share splits, dividends, reorganizations, recapitalizations, and the like) on the trading day prior to the date on which we send the notice of redemption to the warrant holders.

The "fair market value" of the Company's Class A ordinary shares shall mean the average reported last sale price of the Company's Class A ordinary shares for the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of Warrants.

No fractional Class A ordinary shares will be issued upon redemption. If, upon redemption, a holder would be entitled to receive a fractional interest in a share, the Company will round down to the nearest whole number of the number of Class A ordinary shares to be issued to the holder.

#### **Note 7 — Shareholders' Deficit**

*Preference shares* – The Company is authorized to issue 5,000,000 shares of preference shares, par value \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. As of October 22, 2021 there were no shares of preference shares issued or outstanding.

*Class A ordinary shares* – The Company is authorized to issue 500,000,000 Class A ordinary shares with a par value of \$0.0001 per share. As of October 22, 2021 there were 20,000,000 Class A ordinary shares issued and outstanding.

*Class B ordinary shares* – The Company is authorized to issue 50,000,000 Class B ordinary shares with a par value of \$0.0001 per share. On October 22, 2021, 5,750,000 Class B ordinary shares were issued and outstanding.

Holders of the Class A ordinary shares and holders of the Class B ordinary shares will vote together as a single class on all matters submitted to a vote of the Company’s shareholders, except as required by law or stock exchange rule; provided that only holders of the Class B ordinary shares shall have the right to vote on the election of the Company’s directors prior to the initial Business Combination.

The Class B founder shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment as provided herein. In the case that additional Class A ordinary shares, or equity-linked securities (as described herein), are issued or deemed issued in excess of the amounts issued in this offering and related to the closing of our initial business combination, the ratio at which the Class B ordinary shares will convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the issued and outstanding Class B ordinary shares agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, 20% of the sum of all Class A ordinary shares issued and outstanding upon the completion of this offering, plus all Class A ordinary shares and equity-linked securities issued or deemed issued in connection with our initial business combination, excluding any shares or equity-linked securities issued, or to be issued, to any seller in the business combination. Prior to our initial business combination, holders of the Class B ordinary shares will have the right to appoint all of our directors and may remove members of the board of directors for any reason in any general meeting held prior to or in connection with the completion of our initial business combination. On any other matter submitted to a vote of our shareholders, holders of the Class B ordinary shares and holders of the Class A ordinary shares will vote together as a single class, except as required by law and subject to the amended and restated memorandum and articles of association.

#### **Note 8 — Fair Value Measurement**

The following table presents information about the Company’s assets that are measured at fair value on a recurring basis as of October 22, 2021 including the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value.

The following table presents the fair value hierarchy for assets and liabilities measured at fair value on a recurring basis as of October 22, 2021.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<b>Assets:</b>				
Cash held in Trust Account	\$ 202,000,000	-	-	202,000,000
Total assets	<u>\$ 202,000,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 202,000,000</u>
<b>Liabilities:</b>				
Public Warrants	\$ -	\$ -	\$ 5,030,000	\$ 5,030,000
Private Placement Warrants	-	-	4,024,000	4,024,000
Total liabilities	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,054,000</u>	<u>\$ 9,054,000</u>

The Warrants are accounted for as liabilities pursuant to ASC 815-40 and are measured at fair value as of each reporting date. Changes in the fair value of the Warrants are recorded in the statement of operations each period.

The Warrants were valued using a Monte Carlo simulation, which is considered to be a Level 3 fair value measurement. Transfers to/from Levels 1, 2 and 3 are recognized at the end of the reporting period in which a change in valuation technique or methodology occurs. There were no transfers in or out of Level 3 from other levels in the fair value hierarchy for the period from February 1, 2021 (inception) through October 22, 2021.

As of October 22, 2021, the Public Warrants had not surpassed the 52-day threshold waiting period to be publicly traded in accordance with the Prospectus filed October 21, 2021. Once publicly traded, the observable input qualifies the liability for treatment as a Level 1 liability.

The following table presents a summary of the changes in the fair value of Derivative Warrant Liabilities:

	<b>Public Warrant Liability</b>	<b>Private Warrant Liability</b>	<b>Total</b>
Fair value as of March 5, 2021 (inception)	\$ -	\$ -	\$ -
Initial measurement on October 22, 2022	5,030,000	4,024,000	9,054,000
Fair value as of October 22, 2021	<u>\$ 5,030,000</u>	<u>\$ 4,024,000</u>	<u>\$ 9,054,000</u>

The following table provides quantitative information regarding Level 3 fair value measurements inputs at their measurement date:

	<b>October 22, 2021</b>
Exercise Price	\$ 11.50
Underlying share price	\$ 9.75
Volatility	10.79%
Term to Business Combination (years)	1.50
Risk-free rate	1.17%

#### **Note 9 — Subsequent Events**

Management has evaluated the impact of subsequent events through the date the financial statement was issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statement.
